contact the school office

Art is by its nature intrinsically linked to wellbeing. There is a state of flow, not unlike that experienced in meditation, running or walking, that comes with regular art practice. In painting, drawing and crafting children can find that space or 'flow' where time ceases to exist.

And please bring along a healthy snack

Please note: These are planned and gently paced sessions suitable for small group activity. The nature of the session is not intended as one to one tuition.
