Y6 Home Learning Booklet

September 2022

Dear Parents/ Carers and Pupils,

Welcome back! I hope you had a lovely relaxing summer holiday. In Year 6, the new school year has got off to a great start.

Here is an overview of this half-term's home learning. Included are:

- details of the project relating to our history topic (more information on next page);
- English, science, maths, RE, reading comprehension and online activities
- Preparation/research work

Children are expected to complete one page of the **Schofield and Sims** maths and English each week. **This should be handed in on a Monday and will be returned by Wednesday.**

Although book review preparation appears each week on the timetable, your child will be allocated a place on a rota and will only need to prepare for one of these. Your child will make a note of when their turn will be. (Hopefully!)

Please encourage your child to read daily. They can read anything, anywhere to anyone. When reading aloud, look out for clear intonation with good expression, pace and body language.

This booklet can be handed in weekly, or fully completed near the end of half-term (in order for rewards to be collected.)

We have also included the Y3/4 and Y5/6 list of spellings to show you the type of words they could be tested on at the end of the year. You may want to start learning them a few at a time as good practice.

We will put a copy of the homework timetable section of the booklet on the Y6 class page of the school website and Teams. This will make the online homework website links easier to find.

If you have any questions or suggestions, we'll be happy to respond them.

We look forward to receiving your child's home learning.

Thank you once again for your support,

The Year 6 team!

History Project

History Project

What else was happening at the time!

Taking inspiration from our topic on Britain and the trans-Atlantic Slave Trade, I would like you to research and present information on a particular person, place or event from the same period of time (approx. 1750's -1870's)

Perhaps you could find out about the monarch who was on the throne at the time, research an historical figure or an event from the period or perhaps research one of the countries where slaves were taken from. The decision is yours.

Please don't present a history of the slave trade; I am looking for something different.

Deadline for handing in - **FRIDAY 4th NOVEMBER**

This is the week after we return to school and will give us plenty of time to exhibit your work for everyone to see before we move on to the next topic!

WILF:

☺ Use more than one source of information.

In class we have discussed possible sources of information: internet, books (fiction and non-fiction), maps, atlases and video clips. Please list the books and websites you have used at the end of your work or on a separate sheet.

☺ Notes, planning and draft to be handed in with finished project.

☺ Good presentation- Your work should be clear and easy to follow. You could use pictures and diagrams to explain things to me, or perhaps produce a small booklet or captions to go with any models or animations you make.

Please show me the slip below by Friday 30th September. No need to tear it out. It will show me that you have come up with an idea for your project and you can get started straight away (if you haven't already!)

Thank you

My project is about.....
